

Mr. McHugh is AKF's Partner in Charge of Commercial Base Building services which encompasses MEP design for central utilities, core and shell, and tenant fit-outs. He has over 30 years of experience and has been an active contributing member in various committees and societies in New York City. Mr. McHugh is a past President of the NY Chapter of ASHRAE and was a board member from 1990 to 2000. As a board member, Mr. McHugh was very active and chaired various committees, from large efforts such as running the dinner meetings, lecture series, and all-day seminars to administrative roles such as writing the newsletter and serving as secretary. He continues to represent engineers in New York City by contributing to various committees such as the Urban Green Council NYC Building Resiliency Task Force, serving as a board member of the New York Chapter of the American Council of Engineering Companies (NYACEC), and most recently becoming the NYC DOB Liaison for NYACEC in 2014. Mr. McHugh has led AKF's MEP teams through many high profile and challenging projects such as Extell One 57 and the Park Avenue Armory Restoration. One 57 is a 90-story mixed-use ultra-luxury hotel and condominium tower, which won the ACEC Engineering Excellence Silver Award. The Park Avenue Armory is a historic New York City Landmark and the work performed by Mr. McHugh's team in the Board of Officers Room won the Lucy G Moses Preservation award and the Renaissance Award from Friends of the Upper East Side Historic Directors.
