Accreditation:	LEED AP 2.0
Professional Affiliations:	ASHRAE, USGBC

John Rice is a partner at AKF Group. AKF is a full-service consulting engineering firm serving public and private sector clients across the United States and around the world.

John is recognized for his vast experience in designing heating, ventilation and air conditioning systems for high performance buildings across all building types, both new construction and extensive renovations. He is sought after by clients and architects alike for his exceptional leadership skills, his passion for engineering, and his engaging personality. Mr. Rice leads AKF's sustainable design initiative and has collaborated on projects incorporating innovative sustainable features such as geothermal heat pumps, radiant floor heat systems, condensing boilers, heat recovery systems, and gray water systems. John applies out-of-the-box thinking and cutting edge technologies to achieve the owner's goals and he takes particular pleasure in his strengths at energy analysis, systems evaluation and report writing.

He has his BSME from New York Institute of Technology, Old Westbury, NY.

He is, or recently has served as:

- Past President of ASHRAE NY Chapter
- Board of Director Urban League Southern CT
- Board of Director Life Camp, Inc.
- Board of Director of Urban Green
